ACCESS for ELLs 2.0

2015-16 Implementation

Technology

WIDA and project partners on the ASSETS grant are committed to using technology to the maximum extent possible to develop, administer, and score the assessment and report assessment results.

The benefits of administering the new assessments on computer include:

- Increased student engagement
- Standardization of the test-taking experience
- Built-in accommodations appropriate for individual student needs
- Simultaneous administration of multiple grades and tiers
- Elimination of individual administrations of the Speaking test

To ensure that computer delivery does not interfere with students' ability to demonstrate the full extent of their current English proficiency, cognitive labs and pilot studies will be conducted to optimize interface usability, verify items have the desired psychometric properties, and minimize any negative affect associated with computer delivery of tasks. Students and administrators will have an opportunity to become familiar with the interface through a tutorial with practice items.

Technology Requirements

To minimize the planning burden on districts, the technical requirements match the PARCC and Smarter Balanced consortia requirements whenever possible.

Operating systems and devices - minimum recommendations

Operating System/Device	Current Devices	New Purchases		
Windows				
Version	7 or newer *	7 or newer		
Processor	1.4 GHz or faster	1.4 GHz or faster		

Free drive space 1 GB or more 1 GB or more Mac OSX Version 10.5 10.7 or newer Processor Intel x86 or PowerPC G5 800 MHz 1 GB or more Free drive space 200 MB 1 GB or more Linux Version Ubuntu 9-10 or Fedora 6 Ubuntu 11.0 or Fedora 16 or newer Processor Pentium or AMD 500 MHz 1 GB or more Free drive space 200 MB 1 GB or more Linux Version Ubuntu 9-10 or Fedora 6 Ubuntu 11.0 or Fedora 16 or newer Processor Pentium or AMD 500 MHz 1 GB or more Free drive space 200 MB 1 GB or more Chrome Version Chrome OS 19 Chrome OS 19 or newer iOS Version iPad 2 with iOS 7 iPad Air with iOS 7 or newer Android Version 4.0 4.0 or newer Windows Tablets Version Windows 8 Windows 8 or newer	Memory (RAM)	1 GB or more	1 GB or more		
Mac OSX Version 10.5 10.7 or newer Processor Intel x86 or PowerPC G5 800 MHz 1 GHz or faster Memory (RAM) 512 MB 1GB or more Free drive space 200 MB 1 GB or more Linux Version Ubuntu 9-10 or Fedora 6 Ubuntu 11.0 or Fedora 16 or newer Processor Pentium or AMD 500 MHz 1 GHz or faster Memory (RAM) 512 MB 1GB or more Free drive space 200 MB 1 GB or more Free drive space 200 MB 1 GB or more Chrome Version Chrome OS 19 Chrome OS 19 or newer iOS Version iPad 2 with iOS 7 iPad Air with iOS 7 or newer Android Version 4.0 4.0 or newer	• ` '	1 GB or more	1 GB or more

Windows Tablets	Android				
	Version	4.0	4.0 or newer		
Version Windows 8 or newer	Windows Tablets				
	Version	Windows 8	Windows 8 or newer		

Additional Requirements for all operating systems and devices

Requirement

Screen

Size: 9.5-inch or larger

Resolution: 1024 x 768 or higher

Keyboards

External keyboard

Mouse, touchpad, or touch screen

Alternative input devices if allowable accommodations

Headsets

Headset with microphone required

Recommendations for Purchasing Headsets **Z**

Security

Must be able to manage user security settings to temporarily disable some features, such as email, messaging, screen capture, unrestricted Internet access, and so on

Considerations for tablet users

Consideration

Network

The number of concurrent users may be limited when using wireless access It has not yet been determined whether Bluetooth devices will be allowable

Screen size

Minimum 9.5-inch screen with 1024 x 768 or higher resolution

Keyboard

External keyboard required to minimize scrolling for graphics-intensive items

Headsets

Some tablets may require use of an adaptor

Recommendations for Purchasing Headsets 💆

Operating System

Due to the variety of devices and operating systems, a device certification process may be required

Network

The table below reflects minimum and recommended bandwidth requirements. Additional concurrent network activities will reduce the bandwidth available for testing. See the State Education Technology Directors Association publication The Broadband Imperative for more information about bandwidth targets for assessment and instruction.

	Bandwidth (per student)	
Local Caching?	Minimum	Recommended
Yes	20-50 kbps	50 kbps or more
No	40-100 kbps	100 kbps or more
